CONSOLIDATED NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Business Organization

These financial statements represent the financial statements of National Waste Management Holdings, Inc. ("NWMH") and it's wholly owned operating subsidiaries, Sand/Land of Florida Enterprises, Inc. ("Sand/Land"), Waste Recovery Enterprises, LLC ("WRE") and Gateway Rolloff Services, LP ("Gateway"). NWMH, Sand/Land, WRE and Gateway are collectively referred to herein as the "Company". The Company changed its name from Kopjaggers, Inc. to National Waste Management Holdings, Inc. effective October 31, 2014.

On June 16, 2014, pursuant to a share exchange agreement, NWMH merged with Sand/Land of Florida Enterprises, Inc. ("Sand/Land"), a Florida corporation formed as a S-Corporation under the laws of the State of Florida on August 15, 1986, in which the existing stockholders of Sand/Land exchanged all of their issued and outstanding shares of common stock for 9,490,000 shares of common stock of NWMH (the "Reverse Merger"). After the consummation of the Reverse Merger, stockholders of Sand/Land owned 47.45% of NWMH outstanding common stock.

As a result of the Reverse Merger, Sand/Land became a wholly owned subsidiary of NWMH. For accounting purposes, the Reverse Merger was treated as a reverse acquisition with Sand/Land as the acquirer and NWMH as the acquired party.

WRE and Gateway were related party acquisitions. They were acquired on October 15, 2015 and December 1, 2015, respectively. See Notes 9 and 10, Related Party Transactions and Acquisitions, respectively.

Sand/land is a solid waste management company headquartered in Central Florida, currently operating a licensed Construction & Demolition landfill. The Company's primary operations are based near Tampa, Florida.

The Company also offers wood grinding, demolition, mulch and gravel services. The Company's primary operations are based near Binghamton, New York. The Consolidated Company is a full service solid waste management company with operations in Florida and New York, Headquartered near Tampa, FL.

Basis of Presentation

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Consolidated financial statements include the operations of Sand/Land, WRE and Gateway, together, NWMH.

Note 2 – Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results could differ from those estimates.

Fair Value of Financial Instruments

For certain financial instruments, including accounts receivable, accounts payable, accrued expenses, interest payable, advances payable and notes payable, the carrying amounts approximate fair value due to their relatively short maturities.

The Company adopted ASC 820-10, “Fair Value Measurements and Disclosures.” ASC 820-10 defines fair value, and establishes a three-level valuation hierarchy for disclosures of fair value measurement that enhances disclosure requirements for fair value measures. The carrying amounts reported in the consolidated balance sheets for receivables and current liabilities each qualify as financial instruments and are a reasonable estimate of their fair values because of the short period of time between the origination of such instruments and their expected realization and their current market rate of interest. The three levels of valuation hierarchy are defined as follows:

- Level 1 inputs to the valuation methodology are quoted prices for identical assets or liabilities in active markets.

- Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Company did not identify any non-recurring assets and liabilities that are required to be presented in the balance sheets at fair value in accordance with ASC 815.

In February 2007, the FASB issued ASC 825-10 “Financial Instruments.” ASC 825-10 permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings.

The carrying amounts of cash and current liabilities approximate fair value due to the short maturity of these items. These fair value estimates are subjective in nature and involve uncertainties and matters of significant judgment, and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect these estimates. The Company does not hold or issue financial instruments for trading purposes, nor does it utilize derivative instruments in the management of foreign exchange, commodity price, or interest rate market risks.

Note 2 – Significant Accounting Policies (Continued)

Revenue and Cost Recognition

The Company applies paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The Company recognizes revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the sales price is fixed or determinable, (iii) collectability is reasonably assured and (iv) goods have been shipped and/or services rendered.

Cash and Cash Equivalents

For purposes of reporting cash flows, the Company considers cash and cash equivalents to be all highly liquid deposits with maturities of three months or less. Cash equivalents are carried at cost, which approximates market value.

The Company maintains its cash and cash equivalents at various financial institutions where they are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000. The balances of these accounts from time to time may exceed federally insured limits. The Company has not experienced any losses in such accounts.

Accounts Receivable, Bad Debts and Allowance for Doubtful Accounts

An allowance for doubtful accounts is provided for as a percentage of trade accounts receivable based on historical loss experience. As of March 31, 2016 and December 31, 2015, the allowance for doubtful accounts was approximately $20,000 and $20,000, respectively. Bad debt expense recognized for the three months ended March 31, 2016 and 2015 was $335 and $0, respectively.

Property, Plant and Equipment

Property, plant and equipment are recorded at cost less accumulated depreciation. Expenditures for major additions and improvements are capitalized. As property and equipment are sold or retired, the applicable cost and accumulated depreciation are removed from the accounts and any resulting gain or loss thereon is recognized as operating expenses.

Depreciation is calculated using the straight-line method over the estimated useful lives or, in the case of leasehold improvements, the term of the related lease, including renewal periods, if shorter. Estimated useful lives are as follows:

Transportation equipment	5 years
Office and machinery equipment	5 years
Roll off containers	5-7 years
Airspace	39.5 years
Buildings	39.5 years

Note 2 – Significant Accounting Policies (Continued)

Property, Plant and Equipment (Continued)

The Company reviews property, plant and equipment and all amortizable intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable. Recoverability is based on estimated undiscounted cash flows. Measurement of the impairment loss, if any, is based on the difference between the carrying value and fair value.

Impairment of Long-Lived Assets and Amortizable Intangible Assets

The Company follows ASC 360-10, “Property, Plant, and Equipment,” which established a “primary asset” approach to determine the cash flow estimation period for a group of assets and liabilities that represents the unit of accounting for a long-lived asset to be held and used. Long-lived assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The carrying amount of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to sell. Through March 31, 2016, the Company has not experienced impairment losses on its long-lived assets.

Goodwill

Goodwill consists of the excess of cost over identifiable net tangible and intangible assets of company’s acquired. In accordance with the Accounting Standards Codification (“ASC”) 350 “Intangibles-Goodwill and Other”, the carrying amount of goodwill and intangible assets is to be reviewed at least annually for impairment, and losses in value, if any, will be charged to operations in the period of impairment. Goodwill was determined to not be impaired as of March 31, 2016. The test for impairment was done in accordance with guidance in Accounting Standards Update (ASU) 2011-8 for the year ended December 31, 2015. ASU 2011-8 permits an entity to evaluate qualitative factors to assess whether impairment is more likely than not to have occurred.

The Company acquired two related entities during 2015. As part of those acquisitions, the Company assigned $1,238,173 and $941,010 of Goodwill to the purchase prices of WRE and Gateway, for a total of $2,179,183 goodwill included in our balance sheet.

Note 2 – Significant Accounting Policies (Continued)

Intangible Assets

The Company has certain intangible assets resulting from business combinations and acquisitions that are recorded at cost. Intangible assets with finite lives are amortized on a straight-line basis over their respective estimated useful lives.

Intangible assets with finite lives are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. If the estimated undiscounted future cash flows related to the asset are less than the carrying value, the Company recognizes a loss equal to the difference between the carrying value and the estimated fair value, usually determined by the estimated discounted future cash flows of the asset. See note 10, Acquisitions, for details related to the purchase price allocation of identified definite lived amortizable intangible assets, including customer lists, licenses, permits and trademarks. The Company has a customer list that was bought from a related party in 2011, a website built in 2015 and engineering costs as part of a 10 year permit renewal with the Department of Environmental Protection. See note 4, Intangible Assets.

Advertising Costs

The Company expenses all advertising costs as incurred. Consolidated advertising expenses for the three months ended March 31, 2016 and 2015 were $2,800 and $1,206, respectively.

Income Taxes

The Company recognizes deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The Company reviews the tax positions taken or expected to be taken on tax returns to determine whether and to what extent a benefit can be recognized in our Consolidated Financial Statements. To the extent interest and penalties would be assessed by taxing authorities on any underpayment of income tax, such amounts are accrued and classified as a component of income tax expense.

The Company files income tax returns in the United States and Florida, which are subject to examination by the tax authorities in these jurisdictions, generally for three years after the filing date.

Management has evaluated tax positions in accordance with FASB ASC 740, Income Taxes, and has not identified any tax positions that require disclosure.

As of March 31, 2016, the following tax years are subject to examination:

Jurisdiction	Open Years for Filed Returns
Federal and State (FL)	December 31, 2012 – 2015

Note 2 – Significant Accounting Policies (Continued)

Environmental Remediation Liability

The Company accrues for losses associated with environmental remediation obligations when such losses are probable and reasonably estimable. Accruals for estimated losses from environmental remediation obligations generally are recognized no later than completion of the remedial feasibility study. Such accruals are adjusted as further information develops or circumstances change. Costs of future expenditures for environmental remediation obligations are not discounted to their present value. Recoveries of environmental remediation costs from other parties are recorded as assets when their receipt is deemed probable.

Operating, General and Administrative Expenses

Business operating costs including expenses generated from administration and purchasing functions, are recorded in "Operating, general and administrative expenses" in the Consolidated Statements of Income. Business operating costs include items such as wages, benefits, utilities, repairs and maintenance, advertising costs and credits, rent, insurance, depreciation, leasehold amortization and costs for outside provided services.

Stock Issued to Non-Employees for Services Rendered

The Company accounts for stock issued to non-employees in accordance with the provisions of FASB ASC 505-50 "Equity Based Payments to Non-Employees." FASB ASC 505-50 states that equity instruments that are issued in exchange for the receipt of goods or services should be measured at the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. The measurement date occurs as of the earlier of, (a) the date at which a performance commitment is reached, or (b) absent a performance commitment, the date at which the performance necessary to earn the equity instruments is complete (that is, the vesting date).

Earnings Per-Share

Earnings per share are based on the weighted-average number of common shares outstanding at each reporting period.

Reclassifications

Certain reclassifications have been made in prior year balances to conform to the current year presentation. Such reclassifications had no effect on net income as previously reported.

Note 5 – Commitments and Contingencies

General

During the normal course of business, the Company may be exposed to litigation. When the Company becomes aware of potential litigation, it evaluates the merits of the case in accordance with FASB ASC 450, Contingencies. The Company evaluates its exposure to the matter, possible legal or settlement strategies and the likelihood of an unfavorable outcome. If the Company determines than an unfavorable outcome is probable and can be reasonably estimated, it establishes the necessary accruals. Certain insurance policies held by the Company may reduce the cash outflows with respect to an adverse outcome of certain of these litigation matters.

Landfill Related Environmental Remediation

The Company currently operates a fully licensed landfill under approval by the Florida Department of Environmental Protection. As such the company has set up a reserve allowance of $424,596 against estimated future closing cost. As of December 31, 2013 the Florida Department of Environmental Protection has approved the secured letter of credit cash reserve of $324,950 set aside by the Company at March 31, 2016 and December 31, 2015, respectively, in order to be in compliance with the financial assurance requirements for long term care cost of the facility. It is reasonably possible that the recorded estimate of the obligation may change in the near term.

Concentrations of Revenues and Receivables

As discussed in note 8, Related Party Transactions, during the three months ended March 31, 2016 and 2015, approximately 12% and 34% of the Company's revenues were generated from a related party, respectively and approximately 19% and 16% of net accounts receivable were due from related parties as of March 31, 2016 and 2015, respectively.

<u>Landfill Acquisition – Unrelated Entity</u>

On January 25, 2015, Sand/Land of Florida Enterprises, Inc., a Florida corporation and a wholly-owned subsidiary of National Waste Management Holdings, Inc. (the "Company"), entered into a commercial property purchase agreement (the "Agreement") with Nova Resources, LLC ("Nova"), a Florida limited liability company, to acquire a certain commercial and industrial construction and demolition landfill (the "Transaction") located at 3890 Grover Cleveland, County of Citrus, Homosassa, Florida 34465 (the "Property") for $2,500,000, on an "as is" basis. The Property services regions in and around Citrus County, Florida. The Property is approximately eighty (80) acres and is permitted by the State of Florida Department of Environmental Protection as a "Construction and Demolition Landfill".

Pursuant to the terms of the Agreement, the Company agreed to pay an initial non-refundable down payment of $25,000 on January 25, 2015 (the "Initial Payment Day") and up to five additional non-refundable monthly payments of $25,000 due on the 15th day of each month (the "Extension Payment"), following the Initial Payment Day to extend the closing date for an additional thirty (30) days. Each extension payment was credited towards the total amount payable to Nova, with any remaining balance due no later than thirty (30) days after the fifth extension payment. The Agreement may be terminated at the election of either party in the event that the transaction does not close.

Nova agreed to certain non-compete provision for a period of five (5) years from the closing date. Nova also agreed to provide, at the closing date, certain completed permit applications.

The Transaction was not subject to any realty commission and did not close by the final due date. During the three months ended March 31, 2016, the third party had made 2 payments of $25,000, totaling $50,000 and the Company made one payment of $22,473. Although we believe that the expectations reflected in any of our forward- looking statements are reasonable, actual results could differ materially from those projected or assumed in any or our forward-looking statements. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and inherent risks and uncertainties. The factors impacting these risks and uncertainties include, but are not limited to:

- Our results are vulnerable to economic conditions;
- Our ability to raise adequate working capital;
- Loss of customers or sales weakness;
- Inability to achieve sales levels or other operating results;
- The unavailability of funds for capital expenditures;
- Operational inefficiencies;

- Pending or future litigation or governmental proceedings could result in material adverse consequences, including judgments or settlements;
- We may be subject in the normal course of business to judicial, administrative or other third-party proceedings that could interrupt or limit our operations, require expensive remediation, result in adverse judgments, settlements or fines and create negative publicity;
- Our accruals for our landfill site closure and post-closure costs may be inadequate;
- Liabilities for environmental damage may adversely affect our financial condition, business and earnings;

- Our financial and operating performance may be affected by the inability to renew landfill operating permits, obtain new landfills and expand existing ones;

- Extensive and evolving environmental, health and safety laws and regulations may restrict our operations and growth and increase our costs;

- Extensive regulations that govern the design, operation and closure of landfills may restrict our landfill operations or increase our costs of operating landfills; and

- Alternatives to landfill disposal may cause our revenues and operating results to decline.

These risks and uncertainties, as well as others, are discussed in greater detail in this Quarterly Report on Form 10-Q and our other filings with the Securities and Exchange Commission, or SEC, including our most recent Annual Report on Form 10-K. There may be additional risks of which we are not presently aware or that we currently believe are immaterial which could have an adverse impact on our business. We make no commitment to revise or update any forward-looking statements in order to reflect events or circumstances that may change.

GENERAL

Overview

We are a landfill service that provides landfill services, roll-off dumpster service, and mulch products. We service the counties of Citrus, Hernando, and Marion in Florida. We average annual disposals of approximately 200,000 cubic yards of construction debris and manage our 54 acre landfill facility. We started operations with one roll-off truck and now operate thirteen rolloff trucks and approximately 800 containers (subsequent to the WRE and Gateway Acquisitions). We have maintained a contract with Citrus County Solid Waste Management landfill to back-up their roll-off trucks since 2000. On October 15, 2015 and December 1, 2015, we acquired WRE and Gateway as described above (Item 1, Business) and in Note 10 to the financial statements, Acquisitions. These acquisitions added a large roll-off business for C&D to operations as well as full service Waste Company in Upstate NY, offering residential and commercial trash collection, a transfer station and C&D services.

Results of Operations

Comparison for the three months ended March 31, 2016 and 2015

Sales for the three months ended March 31, 2016 and 2015 were $1,553,296 and $390,592, respectively, an increase of $1,162,704 or approximately 298% of consolidated revenue. This is due to the acquisitions of Waste Recovery Enterprises and Gateway Rolloff during the fourth quarter of 2015 and the execution of our business model, increasing our customer base and expanded sales to current customers.

Cost of revenues for the three months ended March 31, 2016 and 2015 were $917,034 and $197,907, respectively, an increase of $719,127 or approximately 363%. This is due to the acquisitions of Waste Recovery Enterprises and Gateway Rolloff during the fourth quarter of 2015.

General and administrative costs for the three months ended March 31, 2016 and 2015 respectively, were $592,248 and $120,755, respectively, an increase of $471,493 or approximately 390%. This is due to the acquisitions of Waste Recovery Enterprises and Gateway Rolloff during the fourth quarter of 2015.

Interest expense was $17,065 and $8,166 for the three months ended March 31, 2016 and 2015, respectively. The increase is attributable to the Company's acquisition of Waste Recovery Enterprises, and the associated equipment financing and related equipment.

Net income (loss) for the three months ended March 31, 2016 and 2015 was $(41,206) and $38,374 respectively. The decrease of $75,580 is primarily attributable to the write of landfill acquisition deposits included in other income expense during the three months ended, totaling $72,473.

Liquidity and Capital Resources

Our primary sources of cash are cash flows from operations. We intend to use excess cash on hand and cash from operating activities, together with borrowings, to fund purchases of equipment, working capital, acquisitions and debt repayments. As of March 31, 2016, we had cash and cash equivalents of $545,380 and working capital of $104,798 as compared to cash of $344,365 and negative working capital of $556,150 at December 31, 2015.

Cash Flows for the Three Months Ended March 31, 2016 Compared to the Three Months Ended March 31, 2015

Cash flows from operating activities for the three months ended March 31, 2016 provided cash of $316,240 compared to $151,998 for the three months ended March 31, 2015, an increase of $164,242 or 108%. This increase was primarily due to increased sales, expenses incurred where stock was issued to settle the professional fee liability rather than cash, and the timing of payments on payables, accrued expenses and taxes. Our cash flows used in investing activities were $51,389 and $0 for the three months ended March 31, 2016 and 2015, respectively, an increase of $51,389. The increase is due to the purchase of equipment. Our cash flows used in financing activities were $63,836 and $9,273 for the three months ended March 31, 2016 and 2015, respectively, an increase of $54,563 or 588%. The increase is due to servicing the equipment financing debt in our fourth quarter acquisition of Waste Recovery Enterprises, LLC and the servicing of debt for a new grinder purchased in December of 2015.
